| » Special Purpose Machine Tools | » Rod Reducing Machine | » Hydraulic Power Press |
| » Two Way Centering & Facing | » Briquetting Machine | » Hydraulic Scrap Baling Press |
| » Copy Turning Lathe | » Deep Draw Hydraulic Press | » Hydraulic Shearing Machine |
| » Riveting Machine | » Pillar Type Hydraulic Press | » Hydraulic Trimming Machine |

FLOW POWER INDUSTRIES

Company Profile

FLOW POWER INDUSTRIES founded in ...t we were in this field from at that time we were developing all type of Hydraulic Press Machines. But to meet with this fast growing world in technology, we have developed our company and take it to the Next Level. We have been upgraded our products from first set of semi-auto press (Manual Press Machines) to now full auto Hydraulic press.

FLOW POWER INDUSTRIES founded in ...t we were in this field from at that time we were developing all type of Hydraulic Press Machines. But to meet with this fast growing world in technology, we have developed our company and take it to the Next Level. We have been upgraded our products from first set of semi-auto press (Manual Press Machines) to now full auto Hydraulic press..

FLOW POWER INDUSTRIES a well laid out modern plant manufacturing the total Manufacturers of : Special Purpose Machine Tools, Two Way Centering & Facing, Copy Turning Lathe, Deep Draw Hydraulic Press, Hydraulic Power Press, Pillar Type Hydraulic Press, Riveting Machine, Hydraulic Scrap Baling Press, Rod Reducing Machine, Hydraulic Shearing Machine, Hydraulic Trimming Machine, Briquetting Machine is considered as one of the best manufacturing unit of various kind of HYDRAULIC PRESS having in-house advanced technologies to develop and manufacture best quality, functionality and cost effectiveness within stipulated time frame.

INFRASTRUCTURE We are supported by modernized facilities, which enable us to fulfill the requirements of our clients with maximum efficiency. Our infrastructure is divided into welding, casting & gear manufacturing divisions for proper division of work and systematic functioning. At this infrastructure, we use superior quality machine frame and components that are rigorly tested before fabrication. To improve product performance and quality, we also use 3D/CAD/CAM technology.

H-Frame Hydraulic Press Cap 5 To 1200 Ton

FLOW POWER INDUSTRIES

FLOW POWER INDUSTRIES

Products

H Frame Deep Draw Press
Cap 20 To 1200 Ton

Vertical Rod Cutting Machine
Cap 27mm

Four Pillar Hydraulic Press
Cap 5 To 300 Ton

C Frame Hydraulic Press
Cap 5 To 300 Ton

**Rod Reducing Machine Double Clamp
Cap 10 To 65mm**

**Horizontal Rod Cutting Machine
Cap 16 To 75mm With Auto feed**

**Rod Reducing Machine Single Clamp
Cap 6 To 42**

FLOW POWER INDUSTRIES

Products

**U Bolt Cold Bending Machine
Cap 6 To 42 Mm**

**Hydraulic Single Way facing
& Chamfering Machine
Capacity 6 To 42 Mm**

**Hydraulic Double Clamp U Bolt
Heating Machine
(Electrial Resistance)**

TECNGICAL SPECIFICATIONS

Model No.	Riveting Capacity (M.S.38 Kg/mm ² U.T.S)(mm)	Stroke Adjustable (mm)	Motor 3Ø 415V
Model-FP-3	3	0-30	0.5HP (0.18 KW)
Model-FP-5	6	0-30	1HP (0.37 KW)
Model-FP-8	9	0-45	1.5HP (0.75 KW)
Model-FP-12	12	0-45	2 HP (1.2 KW)
Model-FP 8-H	9	0-45	3 HP (2.2 KW) Including Power Pack
Model-FP-10-H	10	0-45	4.0 HP (2.4 KW) Including Power Pack
Model-FP-12-H	12	0-45	4.0 HP (2.4 KW) Including Power Pack
Model-FP-16-H	18	0-45	6.0 HP (4.5 KW) Including Power Pack
